2021 International Coastal Clean-up. South Africa.

Project made possible by funding and support from:

Ocean Conservancy, Kelpak, Pick n Pay, Plastics|SA, PETCO (PET Recycling Company), POLYCO (Polyolefin Recycling Company), SAVA (SA Vinyls Association), Polystyrene Association of SA, Packaging SA, Polo, Aquelle, Coca-Cola Beverages South Africa, National Recycling Forum, The Glass Recycling Company, Recycle Paper ZA, Tetrapak, Sasol, Safripol, Tuffy bags, Dow, Fibre Circle, AECl, Let's do it, Department of Forestry, Fisheries and Environment African Marine Waste Network

A second year of masked cleanups.

Since our first events on the South African Coastline, 25 years ago, the International Coastal Cleanup has faced its share of challenges. But we have never faced a challenge like COVID-19 plus an added outbreak of Avian Flu affecting our cleanups.

I am happy to say that in the face of adversity, we cleaned on.

Thanks to all of the partners and coordinators who made the 2021 ICC possible. We could not have done without your efforts.

2021 Volunteer Numbers

Eastern Cape	5 678
Kwazulu Natal	2 327
Northern Cape	1 288
Western Cape	9 156
Total	18 449

Results of the 2021 events.

As we have adopted the Clean Swell® App, the results and findings from the audited cleanups can be found on the Ocean Conservancy Website.
